MEMO TO FILE:

Re: AMERICAN GILSONITE COMPANY
Wagonhound No. 12
ACT/047/009

On February 25, 1977, Mr. Roger Bowman of American Gilsonite called the office in regard to Rons letter of February 23rd which was addressed to Mr. T.C. Moseley.

Mr. Bowman explained that upon abandonment of all mining on the Wagonhound vein on Federal lease U-073071 the hoist house areas and shaft areas, plus the turn-around roads at the shaft sites WH-12 to WH-15 will have been reclaimed. The reclamation work left to be done at that time will be the WH-16 and WH-17 sites and the haul roads to each. The acreage involved in this work will amount to approximately three (3) acres.

This should clarify the question of what acreage will be disturbed at the end of operations.
